

INJECTABLES AFTERCARE

BOTULINUM TOXIN

Results: Botulinum Toxin injections can take 2 or 3 days to start working, and 2 to 3 weeks to see the full effect.

Results in general can last 3 to 6 months. Results can vary depending on the condition of the skin, area treated, amount of product injected, injection technique and lifestyle factors such as sun exposure and smoking.

Aftercare: Avoid extreme facial expressions, alcohol consumption and applying makeup for 12 hours.

Avoid extreme sun exposure, UV light, freezing temperatures, sunbeds and saunas for 2 weeks.

Avoid vigorous exercise for 2 days.

DERMAL FILLER

Results: Results are often noticeable immediately after a procedure.

Results can last 6 months to 2 years. Results can vary depending on the condition of the skin, area treated, amount of product injected, injection technique and lifestyle factors such as sun exposure and smoking.

The average life of treatment in the lips is less than in other areas because of high vascularisation and action in the lip area. A touch-up procedure may be required 1-3 weeks after the first injection and helps to optimise the results and maximise the duration of the results.

Aftercare: Avoid extreme facial expressions, alcohol consumption and applying makeup for 12 hours.

Avoid extreme sun exposure, UV light, freezing temperatures and saunas for 2 weeks.

SKIN BOOSTERS

Results: There is no downtime with this treatment. Results are often noticeable immediately after a procedure with optimal results showing after 2 weeks.

Once a full course of treatments is complete, results should last up to 6-12 months. However, top-up treatments are highly recommended within this time if results start to lessen.

Results can vary depending on the condition of the skin, area treated, amount of product injected, injection technique and lifestyle factors such as sun exposure and smoking.

Aftercare: Avoid extreme facial expressions, alcohol consumption and applying makeup for 12 hours.

Avoid extreme sun exposure, UV light, freezing temperatures and saunas for 2 weeks.
